Devices with 40W and less output power do not support 0.15Ω and 0.2Ω coils.

COREX

Excellence Flavor, Exceeded Endurance

15%↑

Vapor Production

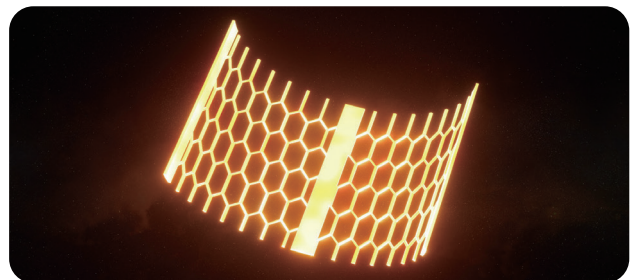

30%↑

Aroma Reproduction

Using a new MORPH-Mesh coil design with a greater surface area for heating, a larger ratio of the coil can reach the optimum flavour delivery temperature. The COREX cotton wick, composed of microfibers, ensures thorough e-liquid absorption.

DUAL MESH

Strong Flavor That Lasts Longer

25%↑

Aroma Reproduction

30%↑

Longer Lifespan

The new dual-layer mesh structure facilitates thorough aporization of e-liquid and extends the coil's service life.

*It is only applied to 0.15Ω, 0.2Ω, 0.3Ω Coils.
